

 Course & Exam
Particulars

Course Type : Core

Course Title: Artificial Intelligence

Course Code: 22AD42

Maximum Marks: 50

Date: 14/05/2026

Time: 09:30 am-11:00am

Section: A

Duration: 01:30hrs

UG Degree | Mid-Semester Examination-II | AY: 2025-26 (EVEN)
Department of Artificial Intelligence and Data Science

Question No	Question		Marks	CO; BL
Instructions:				
1. Answer the following questions.				
2. Programmable calculators and electronic gadgets are not permitted.				
3. Duration and maximum marks are as indicated on the question paper.				
UNIT-IV				
1	a	Illustrate the Knowledge base with its operations	6	4/ L2
	b	Apply the Rule Based Expert Systems	7	4 / L3
	c	Analyze in detail the Reasoning and Planning	7	4 / L4
OR				
2	a	Discuss in detail the First order logic	6	4 / L2
	b	Identify the concept of A Logic based Financial Advisor	7	4 / L3
	c	Simplify the concepts of Programming using Prolog	7	4 / L4
UNIT-V				
3	a	Interpret the Forward state space search with its steps	6	5 / L2
	b	Select the Planning Domain Definition Language with an example	7	5/ L3
	c	Examine the Block world problem	7	5 / L4
OR				
4	a	Discuss in detail the Means End Analysis	6	5 / L2
	b	Construct the Backward relevant states search with an example	7	5 / L3
	c	Discover the GRAPHPLAN algorithm with an example	7	5/ L4
UNIT-III				
5	a	Build the MiniMax Algorithm with an example	5	3 / L3
	b	Inspect in detail the examples of Go and Backgammon	5	3 / L4
OR				
6	a	Make use of the AlphaBeta Algorithm along with an example	5	3 / L2
	b	Classify the types of Game Playing	5	3 / L4
